Introduction

The Federal Perkins Loan, Federal Supplemental Educational Opportunity Grant (FSEOG), and Federal Work-Study programs are called “campus-based” programs because each school is responsible for administering them on its own campus. This Volume gives guidance on issues specific to the administration of the Campus Based Programs.

FEDERAL PERKINS LOAN PROGRAM

The Federal Perkins Loan Program includes Federal Perkins Loans, National Direct Student Loans (NDSLs), and National Defense Student Loans (Defense Loans). No new Defense Loans were made after July 1, 1972, but a few are still in repayment. Perkins Loans and NDSLs are low interest (currently 5%), long-term loans made through school financial aid offices to help needy undergraduate and graduate students pay for postsecondary education.

FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT PROGRAM

The purpose of the Federal Supplemental Educational Opportunity Grant Program is to encourage schools to provide grants to exceptionally needy undergraduate students to help pay for postsecondary education. This provision is in Section 413C(c)(2) of the Higher Education Act of 1965, as amended. Giving priority to applicants with exceptional financial need, schools selecting Federal Supplemental Educational Opportunity Grant recipients must use the selection criteria discussed in Chapter 2 of this volume.

FEDERAL WORK STUDY PROGRAM

Through the Federal Work Study Program, undergraduate and graduate students work part time to help pay for the cost of their education. Schools must use 7% of their FWS Program funds to compensate students employed in community service jobs.

RECENT CHANGES

Organization Changes

For 2004-2005, the Campus Based Volumes of the FSA Handbook have been consolidated into one unified Campus Based
Programs Volume. The new chapters consolidate some repetitive
discussions, and gather guidance on issues common to several
programs into central, easy to find locations.

Chapter 1 of the new Volume 6, Campus Based Programs, covers
fiscal procedures and administrative requirements such as the
FISAP, allocation and transfer of funds, federal/ nonfederal share,
and recordkeeping.

Chapter 2 discusses the operation of FWS programs, including
community service jobs, Job Location and Development programs,
and Work Colleges.

Chapter 3 covers making Perkins loans, in particular disclosures
to students, the new Master Promissory Note, and a Q&A section on
the MPN.

Chapter 4 discusses what happens after a Perkins loan is made.
Repayment, Forbearance, Deferment, and Cancellation are covered
in detail.

Chapter 5 covers procedures for Perkins loan collection and
default.

For more information about where to find Campus Based
sections, see the introductory text at the beginning of each chapter
of this volume.

Guidance Changes/Updates

All chapters referenced are chapters in the current 2004-2005
FSA Handbook, Volume 6, Campus Based Programs.

Chapter 1: Updated loan documentation recordkeeping
guidance. When a loan is assigned to the Department due to total
and permanent disability, the school must retain related
documentation that it does not submit until the Department
approves a final discharge or the loan is paid in full. Clarified
guidance on the limitations on carrying back FSEOG funds for
summer use.

Chapter 3: Clarified guidance on aggregate loan limits. All
borrowing, including graduate level borrowing, counts against the
undergraduate aggregate limit of $20,000. Master MPN guidance/
FAQs added.

Chapter 4: Action Program replaced with the
AmeriCorps*VISTA Program. Amended regulation citation for
previous Perkins disability cancellation.
CHAPTER 2

Operating a Federal Work Study Program

This chapter covers issues specific to operating Federal Work Study, Job Location and Development, Work College programs. For student eligibility criteria relating to campus based programs, including FWS, refer to Volume 1. For information on selecting campus based recipients, and calculating and packaging campus based awards, see Volume 3. For information on disbursing campus based aid, see Volume 4.

Federal Work-Study (FWS) jobs may be on or off campus. Off-campus FWS jobs with federal, state, or local public agencies, or private nonprofit organizations must be in the public interest. Off-campus FWS jobs with private, for-profit organizations must be academically relevant to the maximum extent possible. Also, your school must use at least 7% of its FWS allocation to employ students in community service jobs. (See chapter 1.)

A school must make FWS jobs reasonably available to all eligible students at the school. To the maximum extent practicable, a school must provide FWS jobs that complement and reinforce each recipient’s educational program or career goals.

In assigning an FWS job, a school must consider the student’s financial need, the number of hours per week the student can work, the period of employment, the anticipated wage rate, and the amount of other assistance available to the student. While there is no minimum or maximum award, the amount for each student should be determined based on these factors.

EMPLOYMENT CONDITIONS AND LIMITATIONS

The provisions discussed below apply to all work under FWS, whether on or off campus.

FWS employment must be governed by employment conditions, including pay, that are appropriate and reasonable according to the type of work performed, the geographic region, the employee’s proficiency, and any applicable federal, state, or local law.

FWS employers must pay students at least the federal minimum wage in effect at the time of employment ( $5.15 as of September 1997). The Small Business Job Protection Act of 1996 established a
subminimum, or training, wage that is lower than the minimum wage. However, it is not permissible to pay the subminimum wage rate to students in FWS jobs.

FWS employment must not displace employees (including those on strike) or impair existing service contracts. Also, if the school has an employment agreement with an organization in the private sector, the organization’s employees must not be replaced with FWS students. Replacement is interpreted as displacement.

FWS positions must not involve constructing, operating, or maintaining any part of a building used for religious worship or sectarian instruction. In determining whether any FWS employment will violate this restriction, a school should consider the purpose of the part of the facility in which the work will take place and the nature of the work to be performed. If the part of the facility in which the student will work is used for religious worship or sectarian instruction, the work cannot involve construction, operation, or maintenance responsibilities. If that part of the facility is not being used for religious worship or sectarian instruction, the school should make sure that any work the student will perform meets general employment conditions and that other limitations are not violated.

Neither a school nor an outside employer that has an agreement with the school to hire FWS students may solicit, accept, or permit soliciting any fee, commission, contribution, or gift as a condition for a student’s FWS employment. However, a student may pay union dues to an employer if they are a condition of employment and if the employer’s non-FWS employees must also pay dues.

The Fair Labor Standards Act of 1938, as amended, prohibits employers (including schools) from accepting voluntary services from any paid employee. Any student employed under FWS must be paid for all hours worked.

A student may earn academic credit as well as compensation for FWS jobs. Such jobs include but are not limited to internships, practica, or assistantships (e.g., research or teaching assistantships). However, a student employed in an FWS job and receiving academic credit for that job may not be:

- paid less than he or she would be if no academic credit were given;
- paid for receiving instruction in a classroom, laboratory, or other academic setting; and
- paid unless the employer would normally pay the person for the same job.

A school must make FWS jobs reasonably available to all eligible students at the school. To the maximum extent practicable, a school must provide FWS jobs that complement and reinforce each recipient’s educational program or career goals.
In assigning an FWS job, a school must consider the student’s financial need, the number of hours per week the student can work, the period of employment, the anticipated wage rate, and the amount of other assistance available to the student. While there is no minimum or maximum award, the amount for each student should be determined based on these factors.

**COMMUNITY SERVICE JOBS**

Schools must make students aware of community service opportunities by encouraging them to get involved in community service activities. The program participation agreement also requires your school to work with local nonprofit, governmental, and community-based organizations to identify community service opportunities, including those that assist supportive services to students with disabilities, and inform Federal Work-Study (FWS) students of these opportunities (see chapter 1).

Your school must use at least 7% of its FWS allocation to employ students in community service jobs (see chapter 1). At least one of the FWS students your school employs to fulfill this requirement must work:

- performing family literacy activities in a family literacy project that provides services to families with pre-school age children or elementary school children; or
- as a reading tutor for children who are pre-school age or are in elementary school.

Employing an FWS student in these positions serves the needs of the community and gives the FWS student an enriching and rewarding experience. To further encourage schools to employ FWS students in these positions and as mathematics tutors, FWS regulations authorize a 100% federal share of FWS wages (see chapter 1).

**How are community services defined?**

Community services are defined as services that are identified by an institution of higher education through formal or informal consultation with local nonprofit, governmental, and community-based organizations, as designed to improve the quality of life for community residents, particularly low-income individuals, or to solve particular problems related to their needs. These services include:

- such fields as health care, child care, literacy training, education (including tutorial services), welfare, social services, transportation, housing and neighborhood improvement, public safety, crime prevention and control, recreation, rural development, and community improvement;

---

**Community service**

Dear Colleague Letter CB-97-12, dated July 1997
Dear Colleague Letter CB-94-4, dated March 1994

**Definition of community services**

34 CFR 675.2(b)

The definition of community services includes the terms “service opportunity” and “youth corps program.” Section 101 of the National and Community Service Act of 1990 defines the terms as follows:

**Service opportunity.** A program or project, including a service learning program or project, that enables students or out-of-school youth to perform meaningful and constructive service in agencies, institutions, and situations where the application of human talent and dedication may help to meet human, educational, linguistic, and environmental community needs, especially those relating to poverty.

**Youth corps program.** A program, such as a conservation corps or youth service program, that offers full-time, productive work (to be financed through stipends) with visible community benefits in a natural resource or human service setting and that gives participants a mix of work experience, basic and life skills, education, training, and support services.
• work in service opportunities or youth corps as defined in Section 101 of the National and Community Service Act of 1990, and service in the agencies, institutions, and activities designated in Section 124(a) of that act;¹

• support services for students with disabilities (including students with disabilities who are enrolled at the school²); and

• activities in which an FWS student serves as a mentor for such purposes as tutoring (see “Employing Reading and Mathematics Tutors,” in this chapter), supporting educational and recreational activities, and counseling, including career counseling.

To be considered employed in a community service job for FWS purposes, an FWS student does not have to provide a “direct” service. The student must provide services that are designed to improve the quality of life for community residents or to solve particular problems related to those residents’ needs. A school may use its discretion to determine what jobs provide indirect or direct service to the community.

In determining whether the service is a community service, the school must always consider whether the service provided by the FWS student primarily benefits the community as opposed to the agency or school. See Appendix B for a model need assessment form that can be used with community service agencies.

The Department does not intend to indicate that certain activities are more important than others or that only jobs that have direct contact with community members are acceptable. For example, an FWS student working for a “meals on wheels” program may prepare meals for the program without having any direct contact with the community residents, yet the service he or she is providing is very important in meeting community needs.

There is no restriction as to whether these jobs must be on or off campus. However, a university or college is not considered a community for the purposes of the FWS Program community service requirements. On-campus jobs can meet the definition of community services, provided that the services are open and accessible to the community and that they meet the regulatory and statutory provisions pertaining to the applicable FWS Program employment limitations and conditions. A service is considered open to the community if the service is publicized to the community and members of the community use the service. For example, an on-campus day care service or tutor center that is used by members of the community (not just faculty and staff) can be considered a community service.

If a school provides community services through off-campus sites, these services are considered community services as long as the services are open to the community.
Private, for-profit organizations do not qualify as employers for community service under the FWS Program.

In contacting potential community service agencies, schools should place a priority on jobs that will meet the human, educational, environmental, and public safety needs of low-income individuals. The Department has determined that at this time there is no need to burden schools with a formal definition of low-income individual for purposes of providing community service under the FWS Program. There is no statutory requirement that a particular number or proportion of the individuals must be low-income persons. Some examples of jobs that provide services to persons in the community who may not necessarily be low-income individuals are jobs that provide supportive services to students with disabilities or that prevent or control crime.

**What is a family literacy project? How are family literacy activities defined?**

Research shows that children whose parents work with them on literacy skills during early childhood have a better chance of reading well and independently. The family literacy concept recognizes the family as an institution for education and learning and the role of parents as their children’s first teachers.

A family literacy program integrates four components. It provides:

- literacy or pre-literacy education to children,
- literacy training for parents or other caregivers of children in the program,
- a means of equipping parents or other caregivers with the skills needed to partner with their children in learning, and
- literacy activities between parents or other caregivers and their children.

This definition is consistent with the Even Start and Head Start definitions of family literacy programs.

The Department does not define “family literacy activities” for purposes of the community service expenditure requirement or the waiver of the institutional share requirement. The Department gives schools reasonable flexibility to determine the job description and duties for an FWS student performing family literacy activities.

Family literacy activities are not limited to just tutoring positions. For example, family literacy activities may include training tutors, performing administrative tasks such as coordinating the tutors, or working as an instructional aide who prepares the materials for the project. However, it would not be reasonable to include janitorial or building repair jobs as family literacy activities.
WORK ON CAMPUS

A student may be employed on campus at any type of postsecondary institution, including at a proprietary school. A school, other than a proprietary school, may employ a student to work for the school itself, including certain services for which the school may contract, such as food service, cleaning, maintenance, and security. Work for the school’s contractors is acceptable as long as the contract specifies the number of students to be employed and specifies that the school selects the students and determines their pay rates. A proprietary school also may employ a student to work for the school itself with certain restrictions (discussed below under “Work for Proprietary School”).

At any type of postsecondary institution, including proprietary schools, an FWS student may be assigned to assist a professor if the student is doing work the school would normally support under its own employment program. Having a student serve as a research assistant to a professor is appropriate, as long as the work is in line with the professor’s official duties and is considered work for the school itself.

Student Services

Student services are services that are offered to students. Students are persons enrolled or accepted for enrollment at the school. An FWS student who provides services only to the school’s former students is not providing student services because the services are not offered to currently enrolled students. However, an FWS student who provides services to both current students and former students is providing student services, because the services are offered to currently enrolled students. For example, an FWS student provides job placement assistance to current students and alumni of the school. The FWS student is considered to be providing student services because his or her services are offered to current students, as well as alumni.

Student services do not have to be direct services or involve personal interaction with other students. Services are considered student services if the services provide a benefit either directly or indirectly to students. For example, an FWS student may work in assisting an instructor in the lab or in other work related to the instructor’s official academic duties at the school. See the sidebar for an expanded list of examples of jobs that provide student services. The list is not exhaustive. The fact that a job has some operational functions does not preclude it from being an acceptable FWS job as long as it furnishes student services.

At a proprietary school, FWS students may not work in non-community service jobs that are not student services. In general, jobs that primarily benefit the proprietary school are not student services.
services. For example, jobs in facility maintenance or cleaning are never student services. See the sidebar for a list of examples of jobs that do not provide student services. Again, this list is not exhaustive. Jobs in the admissions or recruitment area of a school are not acceptable student services because such jobs are considered to involve soliciting potential students to enroll at the school.

The non-community service job must provide student services that are directly related to the FWS student’s training or education. This does not mean that the FWS student must be enrolled in an academic program for that field. Instead, it means that the FWS student must be receiving work experiences that are directly applicable to the skills needed for his or her career path. For example, an FWS student enrolled in an air conditioning repair program wants to work in the school’s library. Although the student is not pursuing a career as a librarian, the student would still be able to work in the library. The job is directly related to his or her training because he or she is learning customer service and basic office functions that are applicable to work in an air conditioning repair shop or dealership. Similarly, a job in another student service office such as financial aid, registrar, and job placement would also be considered directly related to the FWS student’s training.

**Employing FWS students as reading and mathematics tutors**

When employing students as reading tutors, schools must, to the maximum extent possible, give placement priority to schools that are participating in a reading reform project that is (1) designed to train teachers how to teach reading on the basis of scientifically-based research on reading; and (2) is funded under the Elementary and Secondary Education Act of 1965. The school must further ensure that reading tutors receive training from the employing school in the instructional practices used by the school.

There is no limit on the amount of funds a school can spend from its FWS allocation to pay FWS tutors.

For more information, see Frequently Asked Questions (FAQs) at the end of this chapter.

**Employment in a foreign country**

Normally, employment in a foreign country is not permissible under the law. However, a school with a branch campus in a foreign country may employ students under FWS if the branch has its own facilities, administrative staff, and faculty. Students may also be employed by a U.S. government facility such as an embassy or a military base. A student may not be employed for a nonprofit organization in a foreign country.
Work for Proprietary School

A proprietary school may employ a student to work for the school itself but only in jobs that meet certain criteria:

1. If the jobs are in community service, they may be either on or off campus. Students employed by a proprietary school and performing community service do not have to furnish student services that are directly related to their education.

2. If the jobs are not in community service, they must be on campus and must:
   • provide student services that are directly related to the FWS student’s training or education;
   • not involve soliciting potential students to enroll at the proprietary school; and
   • to the maximum extent possible, complement and reinforce the FWS student’s educational program or vocational goals.

OFF-CAMPUS AGREEMENTS

If your school would like an off-campus organization to employ FWS students, your school must enter into a written agreement—a contract—with the off-campus organization. A written agreement is required with the off-campus organization even if your school is considered the employer of the FWS student. The school must make sure the off-campus organization is a reliable agency with professional direction and staff and that the work to be performed is consistent with the purpose of the FWS Program. (See Appendix A at the end of this chapter for a model off-campus agreement. The sample need not be followed exactly but serves as a guide.)

The agreement should specify what share of student compensation and other costs will be paid by the off-campus organization. For-profit organizations must pay the nonfederal share of student earnings. Any off-campus organization may pay:

   • the nonfederal share of student earnings;
   • required employer costs, such as the employer’s share of Social Security or Workers’ Compensation; and
   • the school’s administrative costs not already paid from its ACA.

The agreement sets forth the FWS work conditions and establishes whether the school or the off-campus organization will be the employer for such purposes as hiring, firing, and paying the student. The employer is generally considered to be the entity that will control and direct the work of the FWS students—supervising them at the work site, regulating their hours of work, and generally ensuring that they perform their duties properly. However, the school is ultimately responsible for making sure that payment for work performed is
properly documented and that each student’s work is properly supervised.

The agreement should define whether the off-campus organization will assume payroll responsibility and bill the school for the federal share of the students’ wages, or whether the school will pay the students and bill the off-campus organization for its contribution. The school must make up any payments the off-campus organization does not make. It is the school’s responsibility to ensure that FWS payments are properly documented, even if the off-campus organization does the payroll. To fulfill that responsibility, the school must keep copies of time sheets and payroll vouchers and keep evidence that the students were actually paid (usually copies of the canceled checks or receipts signed by the students). (Payroll records are discussed in detail later in this chapter.)

The school is also responsible for ensuring that each student’s work is properly supervised. School officials should periodically visit each off-campus organization with which they have an off-campus agreement to determine whether students are doing appropriate work and whether the terms of the agreement are being fulfilled.

The agreement must state whether the school or off-campus organization is liable for any on-the-job injuries to the student. The employer is not automatically liable. Federal FWS funds cannot be used to pay an injured student’s hospital expenses.

In determining whether to continue an off-campus agreement, many schools have found it helpful to require that students submit a formal evaluation of their work experience at the end of the assignment. The school may also use the evaluation to help off-campus agencies improve their work programs.

Staff members of the off-campus organization must become acquainted with a school’s financial aid and student employment programs to better understand the school’s educational objectives. The school must supply the off-campus organization with this information.

WORK OFF CAMPUS FOR NONPROFIT OR GOVERNMENT AGENCY

If a student is employed off campus by a federal, state, or local public agency or by a private nonprofit organization, providing jobs related to the student’s academic or vocational goals is encouraged, but not required. However, the work performed must be in the public interest. Work in the public interest is defined as work performed for the welfare of the nation or community, rather than work performed for a particular interest or group.

A private nonprofit organization is one in which no part of the net earnings of the agency benefits any private shareholder or individual. An organization must be incorporated as nonprofit under federal or state law. A school classified as a tax-exempt organization by either the
federal or state Internal Revenue Service meets this requirement. Examples of private nonprofit organizations generally include hospitals, daycare centers, halfway houses, crisis centers, and summer camps.

Nonprofit agencies do not qualify automatically as community service employers for purposes of the FWS Program because the work performed must meet the definition of community services in the regulations. A list of programs or activities that are recognized as appropriate work in community services under the FWS Program is included at the end of this section. In addition, work off campus for a nonprofit agency must be in the public interest.

Work is not “in the public interest” if:

- it primarily benefits the members of an organization that has membership limits, such as a credit union, a fraternal or religious order, or a cooperative;
- it involves any partisan or nonpartisan political activity or is associated with a faction in an election for public or party office;
- it is for an elected official unless the official is responsible for the regular administration of federal, state, or local government;
- it is work as a political aide for any elected official;
- a student’s political support or party affiliation is taken into account in hiring him or her; or
- it involves lobbying on the federal, state, or local level.

However, in deciding whether work is in the public interest, schools must consider the nature of the work as well as that of the organization. For example, a private nonprofit civic club may employ a student if the student’s work is for the club’s community drive to aid handicapped children. If the student’s work is confined to the internal interests of the club, such as a campaign for membership, the work would benefit a particular group and would not be in the public interest. As another example, a student may work for a private nonprofit membership organization, such as a golf club or swimming pool, if the general public may use the organization’s facilities on the same basis as its members. If only members may use the facilities, FWS employment is not in the public interest.

Political activity, whether partisan or nonpartisan, does not qualify as work in the public interest. For example, a student is not considered to be working in the public interest if working at voting polls—even if he or she only checks off the names of those who came to vote and does not pass out flyers supporting a particular candidate. Also, a student is not considered to be working in the public interest if working to support an independent candidate. Another example of nonpartisan political activity is work for a city political debate.
Working for an elected official as a political aide also does not qualify as work in the public interest. For example, a student could not represent a member of Congress on a committee. However, a student could be assigned to the staff of a standing committee of a legislative body or could work on a special committee, as long as the student would be selected on a nonpartisan basis and the work performed would be nonpartisan.

Under certain circumstances, work for an elected official responsible for the regular administration of federal, state, or local government may be considered to be in the public interest. “Regular administration” means the official is directly responsible for administering a particular function. Such a person would not create, abolish, or fund any programs, but would run them. Working for a sheriff would be acceptable, as would working for an elected judge (because he or she has direct responsibility for the judicial system). As stated above, any political activity would not be acceptable—raising funds for the official’s reelection, for example. An FWS position that involves lobbying at the federal, state, or local level is not work in the public interest. FWS students are prohibited from working for the Department of Education due to the potential appearance of conflict of interest.

**Work Off Campus for Private For-Profit Companies**

Schools also may enter into agreements with private for-profit companies to provide off-campus jobs for students; however, these jobs must be academically relevant, to the maximum extent practicable, to the student’s program of study. (A student studying for a business administration degree could work in a bank handling customer transactions, for example.) Private for-profit organizations do not qualify as employers for community service under the FWS Program.

Private for-profit organizations may not hire FWS employees to replace regular employees.

Chapter 1 describes further limitations on the use of FWS funds to pay students employed at private for-profit organizations.
ESTABLISHING FWS COMMUNITY SERVICE JOBS

Step #1: Identify potential jobs and employers.

Identify jobs

Brainstorm types of jobs that would meet the community service requirement.

Does your school currently place students in jobs, on campus or off campus, that meet the community service definition?

Communicate the community service requirements to your school’s student employment office.

Identify employers

Does your school currently coordinate with local community service organizations? Which of these organizations might be interested in employing your FWS students?

Contact local nonprofit, governmental, and community-based organizations to assess their needs and determine what interest exists for employing FWS students.

Talk to colleagues

Talk to colleagues at institutions that participated in the expired Community Service Learning Program to get ideas on implementing, locating, and developing the community service jobs.

Step #2: Research your students’ interest in community service.

Research your FWS students’ degrees or certificate programs, interests, and skills to determine which recipients might find community service jobs appealing.

Step #3: Promote community service jobs.

Devise a plan to market community services under the FWS Program to eligible student employers and the community:

- obtain a listing of potential community service agencies,
- ask to be a presenter at various organizations’ meetings,
- engage in networking activities,
- hold and attend job fairs,
- host a financial aid office “open house,” and
- visit local agencies.
LIST OF AGENCIES, INSTITUTIONS, AND ACTIVITIES INCLUDED IN THE DEFINITION OF COMMUNITY SERVICES

The definition of “community services” includes service in agencies, institutions, and activities that are designated in Section 124(a) of the National and Community Service Act of 1990:

1. Conservation corps programs that focus on:
   - conservation, rehabilitation, and the improvement of wildlife habitat, rangelands, parks, and recreation areas;
   - urban and rural revitalization, historical and site preservation, and reforestation of both urban and rural areas;
   - fish culture, wildlife habitat maintenance and improvement, and other fishery assistance;
   - road and trail maintenance and improvement;
   - erosion, flood, drought, and storm damage assistance and controls;
   - stream, lake, waterfront harbor, and port improvement;
   - wetlands protection and pollution control;
   - insect, disease, rodent, and fire prevention and control;
   - the improvement of abandoned railroad beds and rights-of-way;
   - energy conservation projects, renewable resource enhancement, and recovery of biomass;
   - reclamation and improvement of strip-mined land;
   - forestry, nursery, and cultural operations; and
   - making public facilities accessible to individuals with disabilities.

2. Human services corps programs that include service in:
   - state, local, and regional governmental agencies;
   - nursing homes, hospices, senior centers, hospitals, local libraries, parks, recreational facilities, child and adult daycare centers, programs serving individuals with disabilities, and schools;
   - law enforcement agencies and penal and probation systems;
   - private nonprofit organizations that primarily focus on social service such as community action agencies;
   - activities that focus on the rehabilitation or improvement of public facilities, neighborhood improvements, literacy training that benefits educationally disadvantaged individuals, weatherization
of and basic repairs to low-income housing including housing occupied by older adults, energy conservation (including solar energy techniques), removal of architectural barriers to access by individuals with disabilities to public facilities, activities that focus on drug and alcohol abuse education, prevention and treatment, and conservation, maintenance, or restoration of natural resources on publicly held lands; and

- any other nonpartisan civic activities and services that the commission determines to be of a substantial social benefit in meeting unmet human, educational, or environmental needs (particularly needs related to poverty) or in the community where volunteer service is to be performed; or

3. Programs that encompass the focus and services described in both paragraphs (1) and (2).
EMPLOYING FWS STUDENT AS TUTORS: FAQs

What are the requirements to be a ‘reading tutor’ or ‘math tutor’?

The Department does not define ‘tutor’ for the FWS Program. This gives schools flexibility in determining the job description and duties of a tutor. For example, a reading tutor could be an FWS student who reads to a group of preschoolers in a public library.

An FWS student employed as a tutor does not have to meet certain statutory (for reading tutors) or regulatory (for reading and mathematics tutors) educational standards or qualifications for the school to receive an institutional-share waiver. However, an FWS reading or math tutor must have adequate reading or math skills, as appropriate, and the Department strongly recommends that the tutors be well trained before they tutor.

The Department does not require background checks of FWS tutors. However, some state and local jurisdictions may require such checks. The requirements will vary according to the agency or organization involved.

What is a ‘pre-school age child’?

A pre-school age child is a child from infancy to the age at which his or her state provides elementary education. The definition of an elementary school varies from state to state. Because the Department does not wish to interfere with a state’s determination of what constitutes children who are in elementary school, we will not provide guidance on the maximum grade level for elementary school for purposes of the institutional-share waiver for tutoring.

What setting must the tutoring take place in?

Tutoring may be one-on-one or in a group. Tutoring sessions can take place in a school setting or another location, such as a public library or community center. Tutoring sessions can be held during regular school hours, after school, on weekends, or in the summer.

Can FWS students tutor children in parochial schools?

An FWS student can tutor a child in a parochial school under certain conditions:

- The parochial school must be classified as a private, nonprofit school by the Internal Revenue Service or a state taxing body;
- The work may not involve constructing, operating, or maintaining any part of a building used for religious worship or sectarian instruction; and
- The FWS tutor may not use religious material to tutor the child.
EMPLOYING FWS STUDENT AS TUTORS: FAQs (cont’d)

Should tutors be trained?

The Department strongly recommends that the tutors be well trained before they tutor. When an FWS student receives training from a specialist or expert for sufficient duration and intensity, he or she is more likely to be successful with the child he or she is tutoring. Tutor training should emphasize the importance of the tutor's communication with the regular classroom teacher to maximize effectiveness. The amount and type of training will often vary, depending on the needs of the child who is being tutored and the subject being studied. (See chapter 1 for information on using the administrative cost allowance to pay for the cost of training tutors.)

Can students be paid while in training?

Under limited circumstances, an FWS tutor can receive FWS wages while he or she is being trained, and these wages can qualify for a waiver of the institutional share. This training period must be only for a reasonable and limited length of time. The Department would not consider a training period of an academic term to be reasonable. The Department would consider a reasonable training period to be one that occurs before the student begins tutoring and that does not exceed approximately 20 hours. A school may not pay an FWS student to take an academic course the school developed to provide classroom training on tutoring children. An FWS student may take such a course as long as he or she is not paid for taking the course. (34 CFR 675.18(h)) (See chapter 4 for more information.)

Can students be paid during preparation and evaluation activities?

The preparation time and evaluation time worked by an FWS tutor qualify for a 100% federal share as long as the time spent for this purpose is reasonable. For example, the Department would consider attending evaluation and preparation meetings once a week for approximately one hour to be reasonable. The Department wants to give some flexibility because of the value of evaluation and preparation time. However, the goal is to spend funds for FWS students to interact with the children and in family literacy programs, not for other activities.

Will a tutoring job always satisfy the community service requirement?

An FWS tutor job might qualify for a waiver of the institutional share (100% federal share) but not qualify as part of the 7% community service requirement. If, for example, a postsecondary school employs FWS students to tutor young children in its daycare center and the center is not open and accessible to the community, the job would qualify for the waiver, but would not qualify as part of the 7% community service requirement.
EMPLOYING FWS STUDENT AS TUTORS: FAQs (cont’d)

What if the FWS student is training tutors, performing related administrative tasks, or works another FWS job?

The wages of an FWS student who is training tutors or who is performing administrative tasks related to supporting other people who are actually providing the reading or mathematics tutoring do not qualify for a federal share of up to 100%; rather, an institutional share is required.

Remember that it is the FWS reading or mathematics tutor job, not the student working in the job, that qualifies for the institutional-share waiver. Thus, an FWS student who is working another FWS job in addition to the tutor job can be paid with 100% federal funds only for the time he or she is working as a tutor, not for time spent on the other job. If, for example, an FWS student spends only half of his or her time working as a reading tutor (including preparation and evaluation time) and the other half on non-tutoring tasks, the student may be paid 100% federal funds only for half the time and the other half must be paid with a maximum of 75% federal funds and a minimum of 25% nonfederal funds.

How can my school start placing FWS students as tutors?

Your school may construct its own reading tutor program or join existing community programs.

You may use the Job Location and Development (JLD) Program to locate or develop jobs for FWS students as tutors of children. However, you may not use JLD funds exclusively for this purpose because you would be in violation of the JLD statutory requirement to expand off-campus jobs for currently enrolled students who want jobs regardless of their financial need.
JOB LOCATION AND DEVELOPMENT PROGRAM

The Job Location and Development (JLD) Program is one of the FWS Programs. An institution is allowed to use part of the federal funds it receives under the FWS Program to establish or expand a JLD Program.

The JLD Program locates and develops off-campus job opportunities for students who are currently enrolled in eligible institutions of higher education and who want jobs regardless of financial need. This means that jobs may be located and developed under the JLD Program for FWS and non-FWS-eligible students.

Under the JLD Program, your school must locate and develop off-campus jobs that are suitable to the scheduling and other needs of the employed student and must, to the maximum extent practicable, complement and reinforce the educational program or vocational goal of the student.

JLD jobs may be part time or full time, for either a profit or nonprofit employer.

The JLD Program encourages students to participate in community service activities. Your school must inform all eligible students of the opportunity to perform community services and must develop and make available information about community service opportunities. The JLD Program uses the same definition of community services that the FWS Program employs. However, the JLD Program does not have a specific minimum community service requirement, as does the FWS Program.

JLD Program participation

A school that participates in the FWS Program is also eligible to participate in the JLD Program. A school that has an executed Program Participation Agreement (PPA) for the FWS Program may participate in the JLD Program without any prior contact with the Department and without any revision to its PPA. Under the PPA, the school agrees to administer the JLD Program according to the appropriate statutory and regulatory provisions.

If the Department terminates or suspends a school’s eligibility to participate in the FWS Program, that action also applies to the school’s JLD Program.

Student eligibility

Any student employed in a job developed under the JLD Program must be currently enrolled at the school placing him or her in a job. A school may place in JLD jobs both students who do not meet FWS student eligibility criteria and those who do meet those criteria. However, using JLD funds to find jobs only for FWS students would not satisfy the program purpose of expanding off-campus jobs for students who want jobs regardless of financial need.
Use of FWS allocation for JLD Program

When establishing or expanding a program to locate and develop off-campus jobs, including community service jobs, a school may use up to the lesser of the following two amounts:

- 10% of its FWS allocation and reallocation; or
- $50,000.

Use of JLD Program funds

Your school may use federal JLD funds to pay for the cost of establishing and administering the JLD Program. You may not use JLD funds to:

- pay students whose jobs were located and developed through the JLD Program;
- locate and develop jobs at your school or other eligible schools;
- place students upon graduation; and
- displace employees or impair existing service contracts.

A school is expected to generate total student wages exceeding the total amount of the federal funds spent under JLD.

Federal share limitation

You may use federal FWS funds to pay up to 80% of the allowable costs (listed below). Your school must provide the remaining 20% of allowable costs either in cash or in services. This requirement, unlike the institutional share requirement for FWS earnings, cannot be waived.

The institution’s 20% share may be either (1) 20% of each allowable cost, or (2) varying percentages of allowable costs, as long as its total expenditures of institutional funds and/ or provision of services equals at least 20% of the total allowable costs for the JLD Program.

You must maintain records that indicate the amount and sources of your school’s matching share. Procedures and records requirements for JLD are the same as those for all campus-based programs.

Allowable program costs

Allowable costs of carrying out the JLD Program include:

- staff salaries (and fringe benefits, if they are the same as those paid to other institutional employees in comparable positions and are not paid to a student employed through the FWS Program);
- travel expenses related to JLD activities;
• printing and mailing costs for brochures about the JLD Program;
• JLD telephone charges, including installation of a separate line for off-campus employers;
• JLD costs for supplies, equipment, and furniture;
• newspaper or other types of advertising that inform potential employers of the services JLD offers; and
• JLD workshops for students and employers.

Costs that are not allowable are costs related to purchasing, constructing, or altering the facilities that house a JLD project. Indirect administrative costs also are not allowable. One example of an indirect administrative cost is a portion of the salary of someone who is not directly involved in the program, such as the JLD director’s supervisor. Other examples of indirect administrative costs are lighting, heating, or custodial costs incurred as part of the normal operations of the facility in which the JLD Program is administered, such as the financial aid or placement offices.

Students as staff in the JLD Program office

The prohibition against using JLD funds to locate and develop jobs at any school does not mean that your school is also prohibited from employing FWS and non-FWS students as staff in the JLD Program office. Your school may employ FWS and non-FWS students as staff in the JLD Program office as long as you do not use JLD funds to locate and develop these jobs. For example, your school could use the FWS Program to employ an FWS student as a staff member in the JLD Program office.

If your school places an FWS student as staff in the JLD Program office, there are some important points to note. The statute and the FWS regulations prohibit the use of any funds allocated under the FWS Program from being used to pay the institutional share of FWS compensation to its students. Hence, your school may not use federal JLD funds to pay the institutional share of FWS wages earned by an FWS student working as staff in the JLD Program office. Instead, you must use your school’s funds to pay the institutional share of these wages.

JLD reporting on the FISAP

If your school participates in the JLD Program during an award year, you must provide information about its JLD activities on the Fiscal Operations Report and Application to Participate (FISAP). You must report the total JLD expenditures, federal expenditures for JLD, institutional expenditures for JLD, number of students for whom jobs were located or developed, and total earnings for those students.

Your school may not include student staff jobs in the JLD Office on the FISAP in the JLD section for reporting the count of students and the earnings of students for whom jobs were located or
developed through the JLD Program. However, if your school used its own funds to pay the institutional share of wages for student staff jobs, you may count those funds in meeting the minimum 20% institutional share requirement for the JLD Program.

**Multi-Institutional JLD Programs**

For information on deferment provisions exclusive to loans made before October 1, 1980, see the 1994-95 Federal Student Financial Aid Handbook or 34 CFR 674.37.

Your school may enter a written agreement with other eligible schools for those schools to establish and to operate a JLD Program for its students. The agreement must designate the administrator of the program and must specify the terms, conditions, and performance standards of the program. Each school that is part of the agreement retains responsibility for properly disbursing and accounting for the federal funds it contributes under the agreement.

For example, each school must show that its own students have earned wages that exceed the amount of federal funds the school contributed to locate and develop those jobs. This fiscal information must be reported on each school’s FISAP.

If your school uses federal funds to contract with another school, suitable performance standards must be part of that contract. Performance standards should reflect each school’s philosophy, policies, and goals for the JLD Program. You may not develop performance standards, conditions, or terms that are inconsistent with the statute or regulations. In all cases, the performance standards should be clearly understandable, because they will be included in the formal written agreement that each party must observe as part of its responsibility within the particular arrangement.

**WORK-COLLEGES PROGRAM**

The Higher Education Amendments of 1992 authorized the Work-Colleges Program. Schools that satisfy the definition of “work-college” may apply with the U.S. Department of Education to participate in the program. A work-college may transfer funds from its allocation for the FWS Program and/or Federal Perkins Loan Program to fund the school’s Work-Colleges Program.

The Work-Colleges Program recognizes, encourages, and promotes the use of comprehensive work-learning programs as a valuable educational approach when used as an integral part of the school’s educational program and as a part of a financial plan that decreases reliance on grants and loans. The program also encourages students to participate in community service activities.

The term “work-college” is defined as an eligible institution that:
is a public or private nonprofit school with a commitment to community service;

• has operated a comprehensive work-learning program for at least two years;

• provides students participating in the comprehensive work-learning program with the opportunity to contribute to their education and to the welfare of the community as a whole;

• requires all students who reside on campus to participate in a comprehensive work-learning program; and

• requires providing services as an integral part of the school’s educational program and as part of the school’s educational philosophy.

A “comprehensive student work-learning program” is defined as a student work/service program that:

• is an integral and stated part of the institution’s educational philosophy and program;

• requires participation of all resident students for enrollment, participation, and graduation;

• includes learning objectives, evaluation, and a record of work performance as part of the student’s college record;

• provides programmatic leadership by college personnel at levels comparable to traditional academic programs;

• recognizes the educational role of work-learning supervisors; and

• includes consequences for nonperformance or failure in the work-learning program similar to the consequences for failure in the regular academic program.

### Allowable costs

The Higher Education Amendments of 1998 provided for additional flexibility for work-colleges in the use of funds. Allocated program funds may be used to:

• support the educational costs of students through self-help provided under the work-learning program within the limits of their demonstrated financial need;

• promote the work-learning service experience as a tool of education and community service;

• carry out FWS and JLD program activities;

• administer, develop, and assess comprehensive work-learning programs;

• coordinate and carry out joint projects and activities to promote work service learning; and

• conduct a comprehensive longitudinal study of academic progress and academic and career outcomes.

Additional requirements for the Work-Colleges Program are found in 34 CFR 675, Subpart C.
